**What definitions are important to know?**

- “Adult” means any person 60 years of age or older, or any person 18 years of age or older who is incapacitated, and who resides in the Commonwealth of Virginia. “Adult” may include qualifying non-residents who are temporarily in the Commonwealth of Virginia and who are in need of temporary or emergency protective services.

- “Adult abuse” means the willful infliction of physical pain, injury or mental anguish or unreasonable confinement of an adult.

- “Adult exploitation” means the illegal, unauthorized, improper, or fraudulent use of an adult or his funds, property, benefits, resources, or other assets for another’s profit, benefit, or advantage, including a caregiver or person serving in a fiduciary capacity, or that deprives the adult of his rightful use of or
access to such funds, property, benefits, resources, or other assets. “Adult exploitation” includes:

- an intentional breach of a fiduciary obligation to an adult to his detriment or an intentional failure to use the financial resources of an adult in a manner that results in neglect of such adult;
- the acquisition, possession, or control of an adult’s financial resources or property through the use of undue influence, coercion, or duress; and
- forcing or coercing an adult to pay for goods or services or perform services against his will for another’s profit, benefit, or advantage if the adult did not agree, or was tricked, misled, or defrauded into agreeing, to pay for such goods or services or to perform such services.

“Adult neglect” means that an adult is living under such circumstances that he is not able to provide for himself or is not being provided services necessary to maintain his physical and mental health and that the failure to receive such necessary services impairs or threatens to impair his well-being. However, no adult shall be considered neglected solely on the basis that such adult is receiving religious nonmedical treatment or religious nonmedical nursing care in lieu of medical care, provided that such treatment or care is performed in good faith and in accordance with the religious practices of the adult and there is a written or oral expression of consent by that adult.

“Incapacitated person” means an adult who is impaired by reason of mental illness, intellectual disability, physical illness or disability, advanced age or other causes to the extent that the adult lacks sufficient understanding or capacity to make, communicate or carry out responsible decisions concerning his or her well-being.
